I purchased the Investment Banking Interview Guide and was extremely pleased with it. I never write testimonials but this product deserved a quick one. I used only this guide - absolutely nothing else - for internship interview prep and managed to get 3 super days and an offer at BAML IBD (after which I canceled the other two super days). I was shocked at just how well the guide prepared me for the questions that they asked. It was like they were quizzing me on the guide. I will highly recommend to all of my classmates who are interested in break into the industry.

"I received 12 summer internship offers based upon my BIWS-centric preparation, and never faced a question through my interviews that I couldn't deal with."

Brian,

hope the following is useful. please let me know if i can add anything

I completely one full academic year at one of the top universities in the world, but still believe I got far more value from a job preparation standpoint from Breaking Into Wall Street. I received 12 summer internship offers based upon my BIWS-centric preparation, and never faced a question through my interviews that I couldn't deal with.

Additionally, Brian's responsiveness and helpfulness is incredible. Whenever I've had a question about anything, I've received thoughtful and prompt responses.

This is the best experience (hands down) that I've had with a online service. Thanks for all the great work.

"It helped me win my dream full-time offer at Goldman Sachs, and I am currently interviewing with some private equity mega-funds in my senior year of college (which I didn't even think was possible.)"

Subject: Re: Welcome to the Investment Banking Interview Guide!

Thanks Brian - I had also guessed that such questions were driving more towards accounting than anything else. Just wanted to make sure that I still had the right concepts....

I want to take a moment to reiterate just how much I appreciate your products. It helped me win my dream full time offer at Goldman Sachs, and I am currently interviewing with some private equity megafunds in my senior year of college (which I didn't even think was possible). Even though I am a finance major, your interview guide has been very valuable in helping me articulate concepts during interviews. And your fit questions / walk me through your resume guide was amazing.

I have been using your website and products for 2 years and I have become a big fan. Best ROI ever. If you need any additional glowing customer testimonials (not that you have any dearth), I am your man. Keep it up Brian - keep making quality products, keep offering free helpful advice and keep winning the trust of your customers, I am sure your business will go places.

I don't plan on interviewing for a few years after this so I probably won't need BIWS that much more. But I sincerely thank you for creating a resource that helped guide me towards my dream job.

Stay excellent BIWS.
